

## INFORMATION ON FILLERS AND MESOTHERAPY

I use Filorga fillers as well as Chemical peel from Filorga. Mesotherapy is used to treat cellulite on different body areas like the upper legs or hips. Mesotherapy is also used for skin rejuvenation on the face and neck line. It gives a natural face lift effect.

## FILLERS

To erase wrinkles and restore skin volumes instantaneously, nothing beats hyaluronic acid injections. Injected along the wrinkles, hyaluronic acid plumps them up from the inside. Injected in the cheekbones, it reshapes them and re-sculpts facial contours. In the lips it redefines contours and gives them a natural curve.

X-HA<sup>3</sup> - The first polyvalent filler indicated for lips, medium and deep wrinkles.

X-HA®Volume – The volumising solution that resculpts the cheekbones and the facial contours.

M-HA18: The solution for superficial wrinkles and fine lines.
